**Subject: Reference Letter for Anujumarsinh Donvir as
Extraordinary Mentor**

Date: December 15, 2024

Dear Sir/ Madam,

I am writing this letter to highlight Anujkumarsinh Donvir's extraordinary contributions in impactfully shaping my professional technology career. Mr Donvir has served as my professional mentor to me, making a significant impact on my career trajectory in technology. I first connected with Mr Donvir during a tech talk held at Google Developer Group (GDG), BC, Canada where he was delivering a tech talk. Subsequently, I have had formal mentorship from Mr Donvir through the ADPList platform. As a direct beneficiary of his mentorship, I am able to provide this reference to his extraordinary abilities in fostering professional growth and technical excellence.

I, Priti Yadav, am an instructor teaching Public Speaking, Information Systems, and Digital Marketing at Pacific Link College in Burnaby. I am the founder and lead organizer of Google Developer Groups Surrey, a community-led initiative focused on providing technical education to developers, new graduates, and professionals. Additionally, I am an independent researcher in the Artificial Intelligence domain. I also lead a research group at Women in AI Canada, focusing on computer vision.

When I first connected with Mr. Donvir, I was struggling to present my research on accessibility in medical imaging effectively. He immediately demonstrated a deep understanding of the challenges I faced and tailored his mentorship to address my unique needs.

Mr. Donvir's mentorship was pivotal in the following ways:

1. **Advanced Research Methodology:** He provided actionable insights into various aspects of academic research, which were helpful in shaping my knowledge of how to write a research paper.
2. **Career Guidance and Motivation:** Mr. Donvir's strategic guidance and encouragement empowered me to navigate complex career decisions. His mentorship directly led to my professional and academic career advancements, including my successful IEEE paper acceptance, research presentation and mentorship roles.
3. **ADPList Mentorship:** Under his mentorship, I achieved the remarkable milestone of transitioning from a mentee to becoming a mentor on ADPList, a global platform with over 100,000 professionals for fostering professional growth. This accomplishment was a direct result of his continuous support and the leadership skills I developed under his mentorship.

In conclusion, Mr Donvir's mentorship has been truly transformative for me, and has helped me grow as a technology professional. His dedication to professional development, combined with his technical expertise and strategic approach to mentorship, showcases the highest standards of leadership in the technology field. I am sure his continued coaching is going to help me grow even more heights in the future.

Sincerely,

Priti yadav
